

# Fisher-Kolmogorov equations

Andrea Boin, Giacomo Pauletti, Lorenzo Pettenuzzo

# Contents

<b>1</b>	<b>Introduction</b>	<b>3</b>
<b>2</b>	<b>Methods</b>	<b>3</b>
2.1	Stability and Accuracy . . . . .	3
<b>3</b>	<b>Algorithms</b>	<b>3</b>
<b>4</b>	<b>Results</b>	<b>3</b>

# **1 Introduction**

Complete description of the problem.

# **2 Methods**

List and description of the implemented methods with numerical analysis.

## **2.1 Stability and Accuracy**

Stability and accuracy analysis of the implemented methods.

# **3 Algorithms**

Explanation of the algorithms implemented.

# **4 Results**

Results of the project for all the implemented algorithms
